

“TEAR 3M”

Technical Exchange on Augmented Reality (AR) in Maintenance and Material Management (3M)

20-21 February 2019 (WED-THU)
SPAWAR System Center Pacific (SSC PAC)
San Diego, CA

Hosted by SSC PAC's Battlespace Exploitation of Mixed Reality (BEMR) Lab
and held in conjunction with the following working groups:

- DIV WG / AME Subpanel
- Navy's AR Consortium (NARC)
- Service Maintenance AR Tool (SMART) Working Group (Navy)
- AR Enterprise Alliance
- Virtual World Forum (VWF)

Focusing on AR technologies and applications to support 3M

Welcoming vendors/industry leaders that support the following fields:
AR and display technologies (VR, 2D displays, 3D displays, mobile displays, wearables)

In the fields of 3M:

- Manufacturing
- Installations
- Repairs
- Construction
- Logistics
- Additive manufacturing
